

Practice programs using if, if-else and elif

1. Write a program to check if a number is positive and print the message, "This is a positive number." if it is a positive number.

Hint:

2. Check if a year is a leap year and print, "This is a Leap Year." if it is.

Hint: A leap year is a leap year if it is evenly divisible by 4 but not evenly divisible by 100, unless it is also evenly divisible by 400.
